

# CHILD FIND

**Identify. Locate. Evaluate.**

Child Find is part of DODEA's system for identifying children suspected of having a delay in development or a disability. If you are concerned about how your child is performing within the school setting, we can help identify and assess school age students for possible learning difficulties. Please contact Ms. Kuntz at Lester Middle School to schedule an appointment, discuss the situation, and plan next steps at 645-7787.
